

## “Heritage Walks in Athens”

Municipality of Athens - Cultural Organization,

ELLINIKI ETAIRIA - Society for the Environment and Cultural Heritage,  
2004

The eight heritage walks in Athens included in this short volume were prepared by ELLINIKI ETAIRIA (Society for the Environment and Cultural Heritage) for Athenians and visitors to the city during the Olympic Games, but can be equally useful for a visit at any other time.

Our aim has been to enable visitors to move around exclusively by means of the Metro and walking, thus making it possible to acquaint themselves closely with the monuments and ancient quarters of Athens as they developed over the centuries. Each walk includes, if visitors so choose, a visit to ELLINIKI ETAIRIA’s hospitable home, where they can learn more about issues concerning the environment and the cultural heritage in Greece.
