

«Αθηναϊκές κατοικίες του Μοντέρνου Κινήματος - Athenian houses of the Modern Movement»

ELLINIKI ETAIRIA - Society for the Environment and Cultural Heritage, 2013

The documentation of houses of the Modern Movement in the city of Athens has been undertaken as part of the project “Protection of the architectural heritage of the 1930’s (Modern Movement) of the City of Athens, carried out by ELLINIKI ETAIRIA – Society for the Environment and Cultural Heritage.

The documented buildings are representative examples of the recent architectural heritage of the capital city. They were built in the 1930’s and still survive scattered in the city centre and its neighbourhoods. Besides offering a wealth of information through photographs and texts, this book can also function as a visitor’s guide to the most typical examples of Modernism in Athens. It is often difficult to distinguish buildings of the 1930s from later ones influenced by modernism. It should be noted that only a fraction of Modern Movement buildings has been listed; this research is probably the only systematic effort of their documentation.

This publication has been kindly supported by the Representation of the European Commission in Greece.

Documentation, research as well as the digital archive were undertaken with the kind support of the A.G. Leventis Foundation.

ELLINIKI ETAIRIA expresses its gratitude for the generous support it has received to carry out the project.
